Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1723

As shown above, Thompson teaches a filter having a first portion including ridges 4 and a second portion 12 extending vertically (and perpendicularly) with the ridges and forming a wall (that extends between the ridges) [as in claims 1-2]. Thompson doesn't disclose a non-woven fabric. However, a filter including first and second portions made of non-woven fabric is taught in JP 5-287682. It is considered that it would have been obvious to one ordinarily skilled in the art at the time of the invention to have the filter portions of Thompson to be made of non-woven fabric as in '682, since '682 teaches the benefits of excellent air-passability. Claim 1 is a product-by-process claim. It is the examiner's position that the modified Thompson teaches the same product as that claimed. See MPEP 2113.

“[E]ven though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process.” *In re Thorpe*, 777 F.2d 695, 698, 227 USPQ 964, 966 (Fed. Cir. 1985).

Although the filter of claim 15 is made by a different process, the aforementioned combination teaches a three-dimensionally non-woven fabric.

As for claim 18, the aforementioned combination teaches a plurality of wave-shaped portion each having a ridge and the line-shaped member mounted on the at least two ridges vertical (and perpendicular) to the ridges. The two portions made by the process of '682 would be integral.

Response to Arguments

3. Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
